## Muzio Features

- **First Ever 9 band User Setting EQ Support**  
Delicate EQ using 9 bands, 7 types of EQ Support
- **Diverse Visual Effect**  
View and select User's own preferred AVATA or Effects
- **First Ever OLED Selection**  
Brighter and Clearer Picture than Traditional LCD
- **Over 30 Languages Worldwide Support**  
ID3 Tag Support with Attached Multilingual Support Graphic Display
- **New Concept Muzio Look**  
Functionality and Sensibility by Ergonomical Navigation
- **Simple MP3 File Transfer**  
Transferation to MP3 File with directly connecting to Audio Devices
- **WMA Play Possible**  
Basic feature not only includes MP3, but also WMA play by Microsoft
- **FM Reception and Recording**  
FM Radio Broadcast Auto Select and Recording Function
- **Rotating USB Connector**  
Built-in USB Connector for direct connection to PC or Notebook without a cable
- **Folder Limitless Play**  
Limitless Folder Creation

## Cautions (Battery Charger)

### CAUTION!

Do not open the case due to  
a risk of danger in case of electric shock.

Any parts not insulated inside the charger can  
cause an electric shock.  
For safety reasons, do not open the case.

Read the User's Manual to avoid any problems in  
operating the charger.

### WARNING!

Do not allow any water near the charger to prevent fire or electric shock.

### CAUTION

Use a proper electrical outlet for the plug to prevent electric shock.  
The charger should be properly plugged in for safety reasons.

The contents of this User's Manual can be modified without notice for  
product improvement.

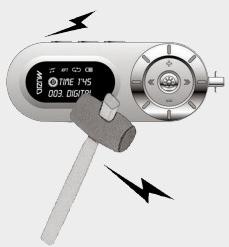

7

## Cautions

1

Do not drop or apply shock to the unit.

2

Avoid places with extreme vibration or magnetic material.

4

Do not spray water directly on the player or wipe with chemicals (benzene or thinner).

7

Do not insert any contaminants inside the player.

5

Do not disassemble the player or apply excessive force.

6

Do not leave in direct sunlight or heat source.

8

Do not leave near dust or smoke.

8

Do not store at extreme temperatures; high (over 35°C) or low (-5°C) or places with high humidity.

9

## Cautions

### Earphone Use

#### Driving Safety

- Do not use an earphone while operating a bicycle, automobile, or motorcycle. This is not only dangerous, but illegal depending on the local ordinances. It is dangerous to use an earphone at high volume while walking especially at crosswalks.

#### Hearing Protection

- Do not use high volume setting. Doctors warn against the danger of listening to music at high volume for a prolonged period of time.
- In case of Tinnitus (Ear Buzzing), lower the volume or stop using the product.

### Optimal Condition for Using the Product

- Temperature : 5°C ~ 35°C  
(Malfunction possible at temperatures above or below optimal)
- Humidity : 10% ~ 75%

### Environment Information

- Separate and recycle the package, battery, and old electronic appliances.

## Specifications

Category	MUZIO Specs
Range of Frequency	20Hz ~ 20kHz
Headphone Output	16mW(8mW+8mW)
Output Resistance	16ohm
Signal to Noise Ratio	90dB
Frequency Range	76.0MHz ~ 108.0MHz
Output	12mW(6mW+6mW)
Signal to Noise Ratio	50dB
Removable Disk	A-type plug attached USB V1.1
File Format	MPEG 1/2/2.5 Layer 3, WMA, LVF, LWV
File Support	Bit Rate 8Kbps ~ 384Kbps
Tag Support	ID3 Tag V1, V2
Product Size	84mm(width)×33mm(length)×23mm(height)
Product Weight	Approximately 42g (excluding battery)
Operation Temperature Range	-5°C ~ 40 °C
Memory	128MB / 256MB / 512MB
Play Time	Play 10 hours, FM 15 hours
Voice Recording	512MB over 130 hours (8Kbps)
Battery	1.5V AAA, LR03 Alkaline battery

12

## Battery Charger Instruction (Option)

Battery charger is included with JM-100F product.  
Only the correct battery and battery charger included must be used.

### 1. Insert the battery into the charger.

※ Insert the battery with the right ends into

the charger as shown in the picture on the right.

### 2. Plug in the battery into an outlet.

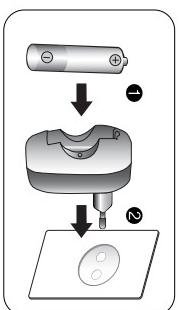

※ Charger must be plugged into a 110V outlet.

※ Recharge Indicator Lamp (red) will come on.

※ Recharge time will be about 2 1/2 hours if the battery is discharged and if recharge is finished, the recharge indicator lamp will turn off.

### CAUTION

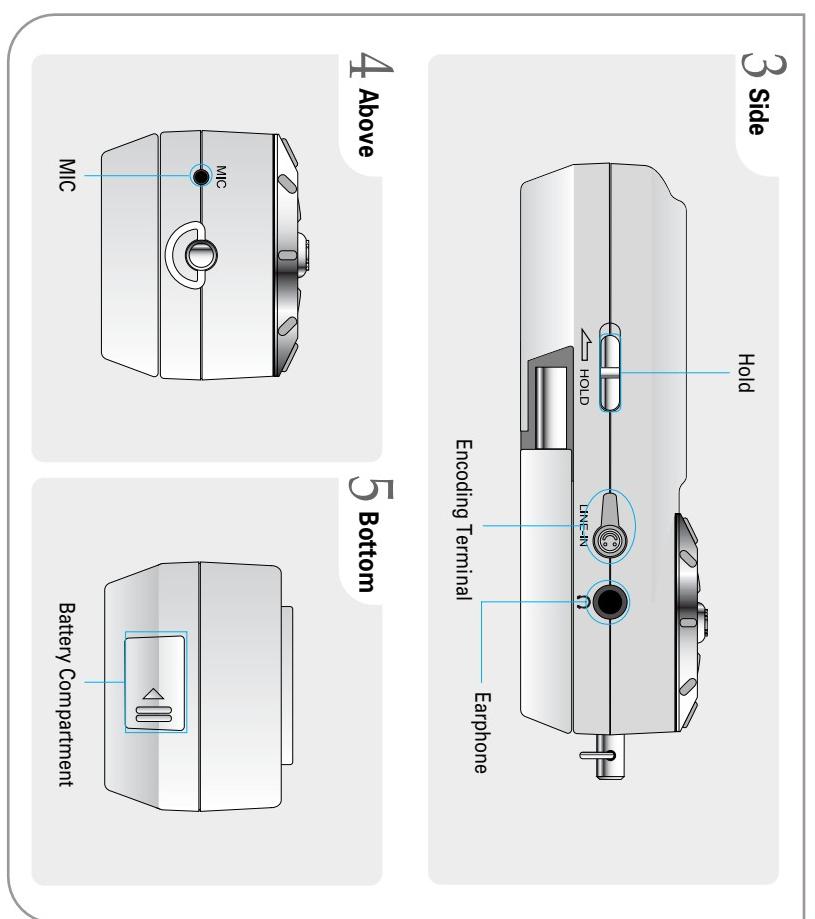

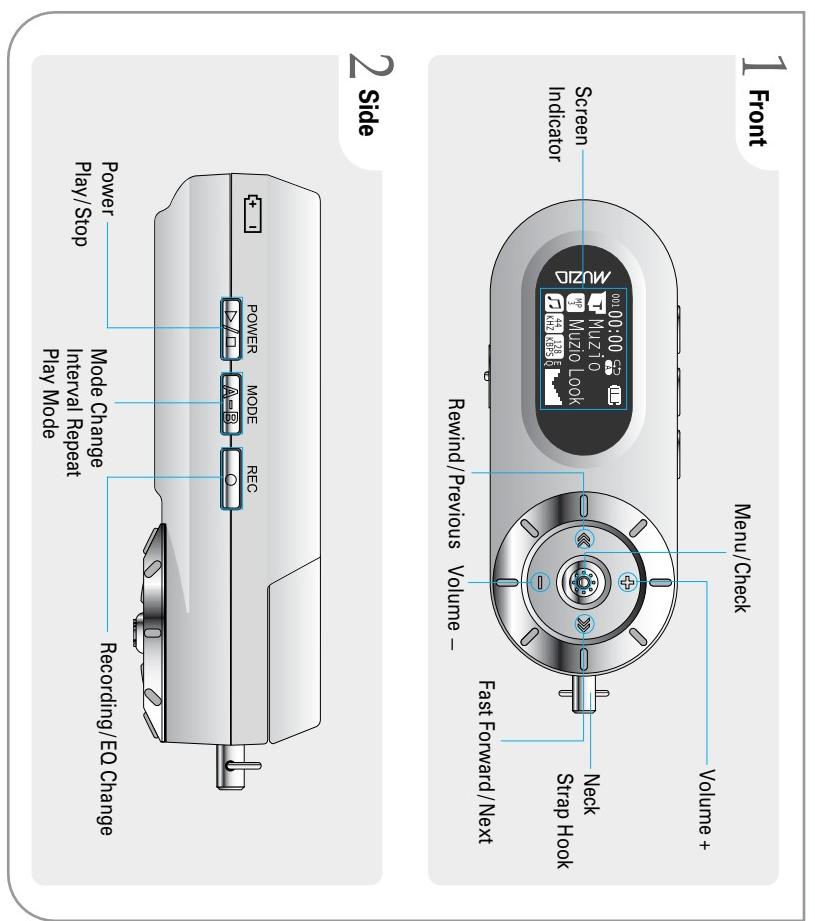

- After recharge is finished, unplug the charger from the AC outlet and store it.
- Due to fire hazard, do not recharge for more than the prescribed amount of time at any time and do not use any defective or wrong type of battery other than the rechargeable battery included.
- Do not plug multiple plugs into the outlet at the same time.
- Do not use damaged rechargeable battery or charger.
- Do not recharge the battery for over 24 hours continuously.
- Overcharging and overdischarging will shorten the life of the rechargeable battery.
- Since rechargeable batteries are consumables, the use life shortens gradually from the time of purchase.
- In order to extend the use of rechargeable battery, use it from full to complete discharge then recharge it to full again. If you repeat recharging after a short use, the rechargeable battery use will shorten. In that case, complete discharge and full recharge should be repeated several times to restore normal performance.
- Be careful not to allow rechargeable battery and metal parts (terminal) of the battery charger to come in contact with any objects with electrical current such as necklace or coin. This may cause a fire or electric shock.

13

## Detailed Part Description

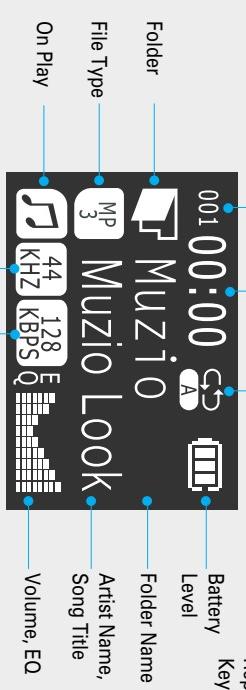

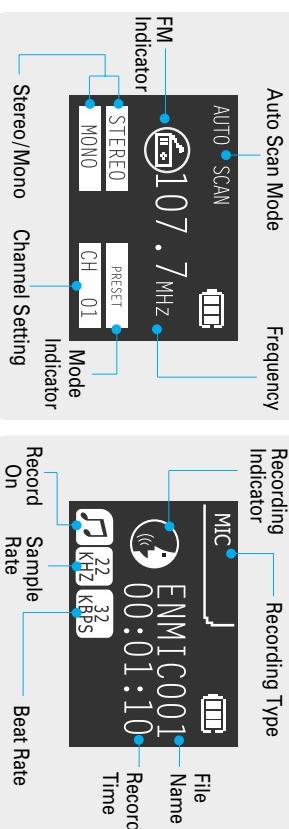

## Screen Indicator

### 1 Play Mode

### 2 FM Mode

### 3 REC Mode

## Introduction

1. Start
2. Basic Operation Function
3. Operation Function Per Mode
4. USB Connection and Safe Disconnection
5. Using Removable Disk

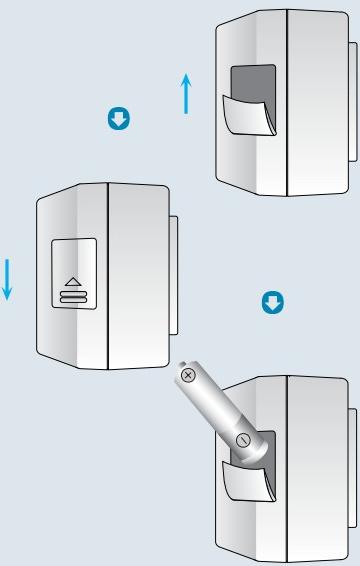

# 1 Start

## 1 Battery Insertion

1. Open the battery compartment by pushing the cover in the direction of the arrow.
2. Insert battery with the right side up. (+ should be at the top)
3. Close the cover by pushing the cover in the direction of the arrow.

## 2 Power On

Press and hold Power button.

**Caution**

- 1. Take out the battery if not used for a prolonged period of time
- 2. In case of any leaks from the battery, remove the battery then clean out the compartment then insert a new battery.

# 2 Basic Operation Function

Displays product's operation status

In the play mode, select previous, search previous section, and search previous or select previous channel in the FM Mode

In the play mode, search next song or search next section, and search next or select next channel in the FM Mode

Increase volume

Decrease volume

Return to Setting Mode to select a category

Turn off Power or Restart/Stop

Interval Repeat Setting/Restart Mode

Select EQ or display Avata Recording (FM, Line in, Voice)

### 3 Operation Function per Mode

#### Operation Function per Mode

##### Mode Change

1 Press and hold the Mode button.

2 Push Left/Right of the Control button for desired mode.

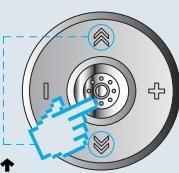

3 Press the center to select the mode.

##### Play Mode

##### Volume Control

Push  
↑  
↓

##### FM Mode

1 Select Preset and Frequency Mode by pressing the Mode button.

AUTO SCAN  
STEREO  
PRESET  
CH 01

### 3 Operation Function per Mode

#### REC Mode

1 MIC, CD, and FM recording starts in REC Mode. (See Environment Setting Pg.57)

2 Press REC button to pause then press it again to start recording.

3 Press MODE button to stop recording and return to the Play Mode.

4 Press and hold the REC button to resume recording.

Caution

If USB is removed during the transmission of files to the player, it may cause an error or failure to save. Therefore, remove it after all transmission is complete.

### 4 USB Connection and Safe Disconnection

1 WIN ME/2000/XP : Automatic detection when player connects to PC.

2 WIN98SE : To detect player, install "Muzio Utility Software" or refer to Installation CD.

3 When PC and Muzio are connected together, USB CONNECTING will be displayed on the Muzio Status Window.

4 When removing USB, click on the tray icon to select "USB Mass Storage Device-Drive(\*);Stop" Click on "OK" at the Hardware Safe Removal Window.

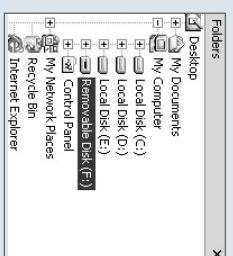

• Supporting OS : WIN 98SE/ME/2000/XP

## 5

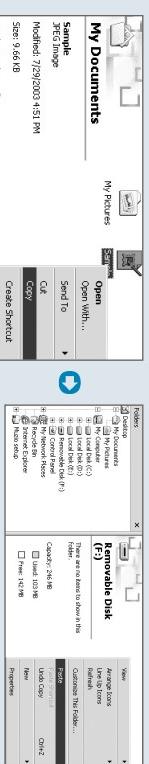

### Using Removable Disk

1 Start Windows Explorer after connecting player USB to PC.

2 After checking whether Removable Disk is found on the left window of the finder, select a desired file.

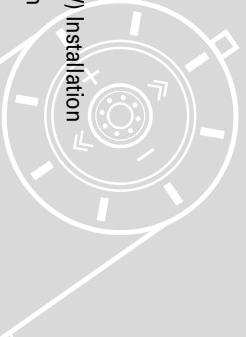

3 Copy the desired file and paste on to the Removable Disk.

# Using Software

## •Using Muzio Utility

1. Muzio Utility(S/W) Installation
2. Menu Description
3. Edit AVATA
4. Convert music file at Windows Explorer
5. Font Upgrade & Firmware Upgrade
6. FM Frequency Setting

## Using Muzio Utility

### Preparation

1 Insert the packaged installation CD for the following screen.

2 If the screen does not appear automatically, start setup.exe to run the program.

3 The CD contains Muzio Utility Program and Device Driver.

26

## Muzio Utility(S/W) Installation

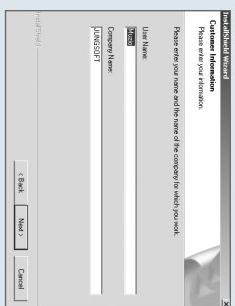

1 At the install screen, select Muzio Utility for the following install screen. Click on "NEXT"

2 User's License Agreement will appear. Click on "YES" to accept the terms and conditions.

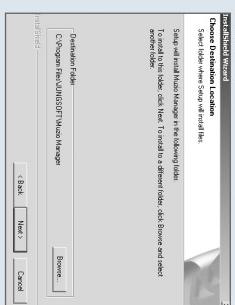

3 Enter User information and click on "NEXT"

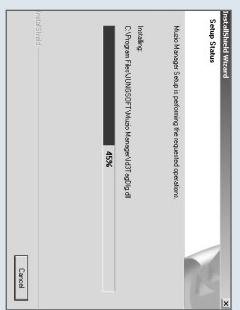

27

4 Designate a folder by clicking on the Browse button and if not, click on "NEXT" for next step.

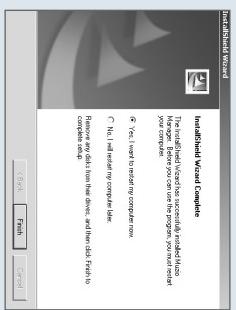

## 1 Muzio Utility(S/W) Installation

### 5 Installation in Process.

### 6 After restarting the computer, use the program by running the Utility Wizard.

**Reference**  
WINS8 SE requires a driver for detecting the device.  
Driver installation is required if basic installation is complete, but the device fails to be detected.  
(Included in the Installation CD)

28

## 2 Menu Description

### 1 Run MUZIO Utility for the following window.

- 4 folders including the root folder support create folder function.
- There is no limit in creating a new folder inside a folder.

### 2 Music file download is possible without the battery.(Use USB power)

**Reference**  
Driver installation is required if basic installation is complete, but the device fails to be detected.  
(Included in the Installation CD)

29

## 2 Menu Description

### Menu Description

#### Icon Functions

**Avatar Upgrade**

Font Upgrade

Avatar Upgrade

FM Frequency

Font Upgrade

Firmware Upgrade

Exit

Font Upgrade

Avatar Upgrade

FM Frequency

Font Upgrade

Muzio Player Connected

4

Firmware Upgrade : Improve player firmware performance

5

Exit : Close Muzio Utility

1 AVATA Upgrade : Create, preview, and save avata in the player

2

FM Frequency : Set FM Channels for Muzio

3

Font Upgrade : Modify player font

### 3 Edit AVATA

#### Edit AVATA

1 AVATA Upgrade at the Menu.  
(The picture size should be set at 96(W) X 64(H)pixel)

2 The box below will display all available AVATA.

4 Select the folder with the saved picture at the next window and click on "OK".

6 Click on ▶ for preview and click on "SAVE" to store the picture.

5 Follow the sequence of the picture and number them accordingly.  
Ex : 01.bmp and 02.bmp to arrange the pictures.

3 Click on "OPEN" after selecting the desired item from the displayed items. (Start, Finish, AVATA, Effect screen)

7 Click on ▶ to open the initial AVATA or return to AVATA before the change.

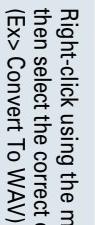

32

### 4 Convert music file at Windows Explorer

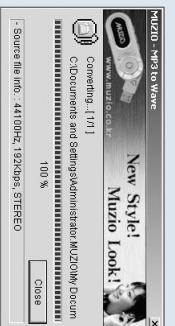

#### Convert music file at Windows Explorer

1 Select a music file saved in the PC. (Ex> test.mp3)

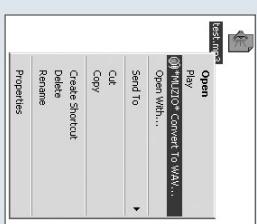

2 Right-click using the mouse for the popup menu then select the correct option for music file format. (Ex> Convert To WAV)

3 The following window will appear and convert the file.

4 The name of the file is same, but changes the format. (Ex>test.wav)

**Reference** Use the other convert music menus as shown above.  
Except, please check the expanded naming of the file (~.mp3 / ~.wav / ~.M4 / ~.WAV)

33

## 5 Font Upgrade & Firmware Upgrade

### Font Upgrade

- 1 Select Font Upgrade at the Setting Menu.

- 2 Select the Font (\*.fot) downloaded from the homepage and click on "OK".

- 3 The following menu will appear and font will be saved in the player.

- 4 When the following menu appears, remove the muzio player.

### Firmware Upgrade

- 1 Select Firmware Upgrade at the Setting Menu.

- 2 Select the Firmware (\*.bin) downloaded from the homepage and click on "OK".

- 3 The following menu will appear and firmware will be saved in the player.

- 4 When the following menu appears, remove the muzio player.

## 6 FM Frequency Setting

- 1 Select the FM frequency at the setting menu.

- 2 Input desired FM frequency into the following frequency box.

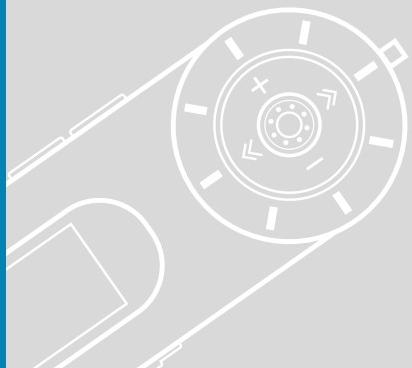

- 3 To save the list of broadcasting frequencies in the hard drive, click on to save at a desired location.

- 4 For the saved broadcasting frequency, click on for the list.

- 5 After finishing, click on "OK" to save the FM channel in the player.

## 1 Music Listening

### Play Mode Function

Click on MODE button to change the Play Mode.

	<b>REPEAT 1</b>	Repeat 1 song
	<b>REPEAT DIR</b>	Repeat playing songs in a selected folder
	<b>REPEAT ALL</b>	Repeat playing all music files
	<b>DIR</b>	Stops after playing all songs in a selected folder
	<b>SFL DIR</b>	Play songs at random (in any order) in a selected folder and stops After playing all songs in the folder
	<b>SFL ALL</b>	Play all music files at random and stops after Playing all songs
	<b>R SFL DIR</b>	Play and repeat all music files in a selected folder at random
	<b>R SFL ALL</b>	Play and repeat all music files at random
	<b>INTRO</b>	Depending on the set (See Pg. 55) time by the user, INTRO plays each song from the start in an order. Click on  button to cancel INTRO setting.

40

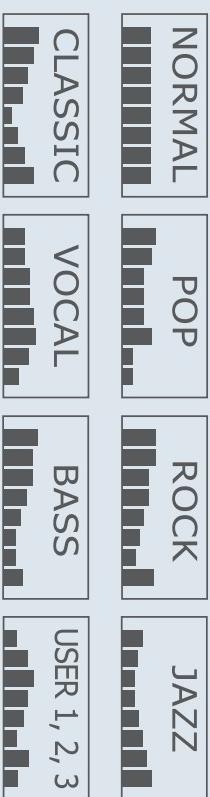

## 1 Music Listening

### EQ Function

Click on REC button to change the current EQ to another tone.

There are 7 selected and 3 settings.

See Pg. 56 for User EQ

### Auto Save Mode

The following screen will appear if there is no key input for a set time during Play. This mode will save battery usage. (See Display SEC)

Caution There may be no sound if USER EQ is used without setting USER EQ.

41

## 1 Music Listening

### Folder Search Function

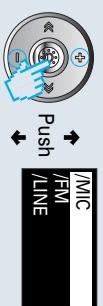

A user finds and listens to music in a desired folder when listening to music in each folder.

- At the play mode, push and hold in <> or >> direction.

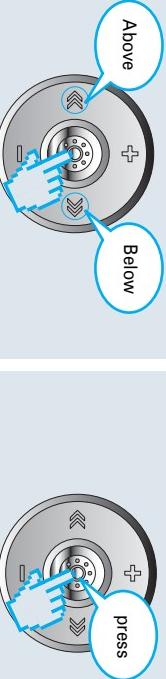

Push and Hold →

- Select by pushing in the + or - direction of the desired folder.

Push →

- Push in >> direction to go into the lower folder and push in << direction for the above folder.

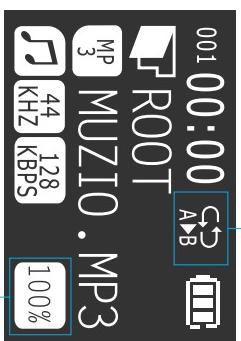

- Press the center of the control after going to the desired lower folder.

42

## 2 Study Function

### ② Repeat Function

### 2 Repeat Function

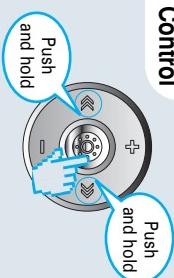

43

### 1 Keymap

Study Keymap and Play Keymap are available for MUZIO Key setting. Study is a language study function. (See Setting Pg. 62)

### 3 Speed Control

- Fast : 105%
- Normal: 100%
- Slow : 95% > 90% > 85% > 80% > 75%

Reference Short push for song selection

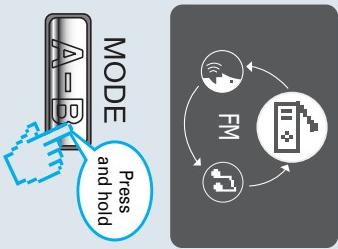

### 3 FM Listening

#### Radio Station Setting

- 1 Press MODE button.

- 2 Use << or >> to select a FM station and press the center button of the Control.

- 3 User may listen to FM if the following screen appears.

44

45

### 3 FM Listening

#### Broadcast Selection Method (Frequency Range 76.0MHz~108.0MHz)

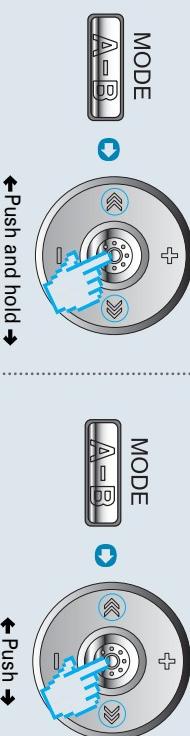

- 1 To change the frequency, push << or >>.

- 2 Press Mode Button to select PRESET/FREQUENCY (Frequency) Mode.

- Auto Scan Function :**  
If you desire to automatically find the frequency, press Mode button to cancel PRESET the push and hold << or >>.

- PRESET Function :**  
If you desire to find the desired radio station, press MODE button to select PRESET then select the desired radio station by pushing << or >>.

### 3 FM Listening

#### Broadcast Save

- 1 Push << or >> either short or long to find the desired radio station.

- 2 Press REC button then the PRESET will flash on the screen.

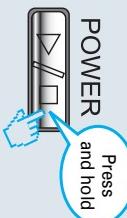

- 3 Select desired channel by pushing << or >>

- 4 Press the center button of the control.

- 5 Up to 20 broadcasts can be saved. (possible to save at Muzio Software)

46

### 4 Recording

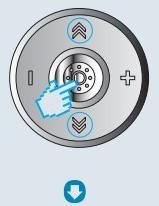

#### Voice Recording

- 1 Press MODE button.

- 2 Select REC with << or >> and press the center of the control.

- 3 Select Voice at the REC lower menu Source in the Setting. (Setting= Pg. 57)

- ※ Hot Key: At the Play Mode, when the setting is Voice(REC>Source), Press and hold REC to start voice recording.

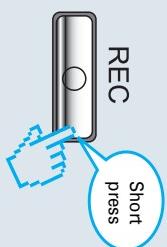

47

## 4

### Recording

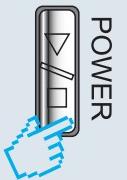

- 4 Press REC button to pause the recording.

- 5 Press MODE button to stop the recording.

- 6 Press POWER button to listen to the recording.

- 7 Press and hold REC button to resume recording.

48

## 4

### Recording

#### FM Broadcast Recording

- 1 While listening to a FM broadcast, if you want to record the broadcast, press and hold the REC button.

- 2 When pausing the recording, press REC button and press MODE to stop it completely.

Recorded file (FM, LINE, VOICE) was saved in "EN\_FM000.MP3 (Basic)" file format and is saved in a sequence of "EN\_FM001.MP3" depending on the recorded file.

Short  
REC

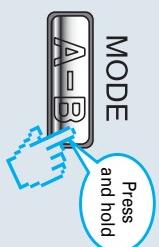

Short  
MODE

49

## 4 Recording

3 If you wish to listen you have just recorded, press and hold Mode Button.

- 1 Connect the output of any stereo system or device and line-in of this player with a Line cable.

- 2 Select Line-in at the lower menu  
(See pg. 57 for Setting Menu)

- 3 Press MODE button to select REC to start recording.

FM recording is available when in FM MODE

**Caution** Some stations may not be available in an area where the radio frequency transmission is weak.

## 4 Recording

### Line - in Encoding

- 1 Connect the output of any stereo system or device and line-in of this player with a Line cable.

**Reference** At the setting menu, select Sync On then it only runs when there is a sound in the device for convenience.

\* **Hot Key:** If setting is Line-in at the Play Mode, press and hold for encoding.

## 5 Management

### Management

- ① Erase File ② Format ③ Initialize

See Setting Pg. 62~63

#### Firmware Upgrade

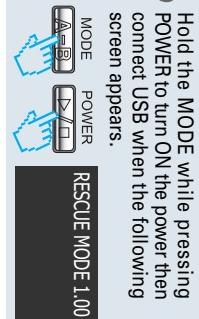

When the player does not operate or turn ON during Firmware Upgrade.

#### What is Firmware Upgrade?

It is controlling MUZIO through the software which is called Firmware.

 bot : A booting Firmware for MUZIO Player.  
app : A program Firmware for MUZIO Player.

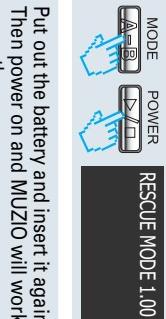

#### 1 Download Firmware (.bot/.app) from the Homepage.

2 Install by starting "setup.exe" in the "Install Driver" of the lower folder in the "Muizio Flash" folder in the installation CD.

3 Hold the MODE while pressing POWER to turn ON the power then connect USB when the following screen appears.

4-1 Run "MuizioFlash.exe" in the "MuizioFlash" folder to select Boot and press Browse to select .bot file and press Write button to save in the player.

4-2 Run "MuizioFlash.exe" in the "MuizioFlash" folder to select Application then press Browse to select .app file and press Write button to save in the player.

5 Put out the battery and insert it again, Then power on and MUZIO will work correctly.
